Profile

A dedicated front-end developer with a bachelor's degree in computer science. I have strong skills in HTML5, Vanilla CSS, Figma, JavaScript, React.js, Material UI, Express.js, MongoDB (Compass), Node.js, JWT (JSON Web Token), bcrypt, Tailwind CSS, Postman, Jasmine, scripting for manual testing, and RESTful API. Strong interest in universal design, AI, and machine learning algorithms.

Key qualification

- **Education:** Bachelor's degree in computer science with 3.79/4.00 CGPA.
- **Programming:** Intermediate level in frontend development; familiar with backend fundamentals, growing advanced in JavaScript & problem-solving skills.
- **Language proficiency:** Fluency in English and conversation skills in German.
- **Characteristics:** Self-motivated and eager to explore emerging technologies through continuous learning. Confident in interpersonal relationships. Characterized as positive, proactive, systematic, and with good collaboration skills.
